HIGH SALARIED PLAYERS.

Denver Sporting Authority Mrs. Bis

Speaking of the reported high salaries paid to ball players Otto Flato says a lot of it is talk.

Every now and then we hear of the big salaries that are paid to ball players, but few of them are actual facts.

The highest paid player in the history of the game.

Lajoie of Cleveland was probably the topnotcher, he receiving \$50,000 for three years and a clear story to sign a contract.

Others who have been paid as much as \$50,000 like Willie Keeler and Chesbro, but they are all back to where salaries belong this season.

The funniest part of that strife was when the Cincinnati club offered Frank Donahue \$25,000 a year for three years.

Of all the high salaried men, but one, Lajoie, drew his salary at the gate, and when his contract expires at the end of the present season he will probably be given a contract for \$50,000 a year.

Old man was a player is worth what he draws, and Lajoie certainly draws at the gate.

# Cancerous Ulcers

ROOTED IN THE BLOOD.

After the age of 45 or 50, when the vital forces are naturally weaker, it is noticed that a hurt of any kind heals slowly, and often a very insignificant scratch or bruise becomes a bad ulcer or sore. At this time of life warty growths, moles and pimples that have been on the body almost from birth begin to inflame and fester, and before very long are large eating, sloughing ulcers.

Whenever a sore or ulcer is slow in healing then you may be sure something is radically wrong with your blood. Some old taint or poison that has been slumbering there for years is beginning to assert itself, and breaks out and becomes a bad ulcer and perhaps the beginning of Cancer.

These old sores are rooted in the blood, and while washes, soaps, salves, etc., keep the surface clean, they are not healing. A blood medicine to purify and strengthen the polluted blood, and a tonic to build up the general system is what is needed, and S. S. S. is just such a remedy. No poison is so powerful and no germ so deadly that this great vegetable blood remedy cannot reach it, and ulcers of every kind quickly yield to its wonderful curative properties. Medical advice or any information you may desire will be given by our physician without charge.

THE CHINESE SAMPAN.

The peculiar specimen of the boat family herewith illustrated is the kind of craft the Japanese found of great service in their passage of the Yalu. It is the sampan, and it is in common use in China, especially in the province of Manchuria.

It is from fifteen to eighteen feet in length and is put together in a very substantial manner. The sampan is capable of conveying a considerable cargo of either goods or men. It is the chief means of transacting business between the inland river towns.

JUGGLING WITH ACCOUNTS.

John D. Rockefeller, at a director's meeting in New York, was describing certain methods of juggling with accounts—certain deceptive ledger and journal entries that he had used when he was about to go dishonestly.

"The other day," said Mr. Rockefeller, "I heard of a woman who would have made an excellent account joggler. This woman's husband always left in her possession a number of blank signed checks. She was free to use these checks, but he required from her a full explanation of the expenditure that had been made with each of them."

"He was looking over the stubs one day."

"You say here," he said, "that check for \$25, went for church expenses. What of the other expenses were these?"

"A new Easter bonnet," was the woman's answer.
